

What's a boudoir photography session like?

First we do a consult to prepare for the session, and then tailor session to your needs. When you arrive we have music on, (and bring your favorite CD's as well) we have refreshments available, an all female crew, a private bathroom, and a robe to use. We also have a collection of feather boas, tulle, scarves, fabric to wrap or drape you with, and assorted props you are welcome to use as well.

Is there any male staff present at the boudoir session?

NO.

Do you need the perfect body?

Boudoir photography isn't about your age or body type, it's all about attitude. Allow Diana's artistic eye to help you emphasize your best assets while disguising the parts of you that you're self-conscious about. Most women (myself included!) don't have bodies like a super model but that doesn't mean that we can't have gorgeous, sexy photos as well. Just remember your significant other loves you just the way you are!

Do you have a make-up artist available?

We have a referral list of make-up and hair people we would be happy to share with you.

Pick-a-Theme

Fashion inspired – Your sexiest outfits. Career inspired – Business Suits, Police Uniforms, Firefighter Turnouts, Doctor Coats, Construction Belts, etc... '40s Pinup is back in style and is oh-so-sexy. Several retailers on the web carry pinup inspired clothing.

Clothing Choices

Bring clothing that you feel sexy and beautiful in. Bras, panties, corsets, teddies, stockings, tank tops, booty shorts, sports jerseys & men's business shirts are all popular. Don't forget to bring accessories for each of your outfits as well as your sexiest shoes and nylon stockings. It is always a good idea to bring a few extra things...you never know where inspiration may lead us!

Modesty & Nudity

You don't have to take your clothes off to be sexy. Clothed, partially clothed, hinted nudity and fully nude can all be sexy. Because of your planning session with Diana, she knows what you're comfortable showing in your portraits, and you can trust her to keep the parts you want hidden to stay hidden.

Couples sessions

Couples boudoir is also a wonderful way to capture your love for each other. These sessions are romantic, sensual, playful, fun and always tasteful. For anyone thinking of having boudoir photography done who is up for something even a little more daring, I would definitely recommend a sensual couples session!

Girls Night Out!

What is Girls Night Out? It is pretty much like a Mary Kay party... but wildly fun and the experience of a lifetime! The "hostess" sets up the party and invites up to 10 friends. If she brings 4 friends, her shoot is free. If she brings 8 friends, so is her "Little Black Book" of photos!

MEN

If you are reading this, why not gift your fiancée or wife with a portrait session? You may or may not know quite what boudoir is, but basically the women we photograph in these intimate portrait sessions end up liking the photos as much or more than the men they gift with the photos. Treat her to a custom portrait session — we're only young once!

Women

Wouldn't you just love to have a sexy portrait of your man? Treat him to a "Dude-oir" session, or make it part of your couples session.

Retouching

Your images include full custom retouching applied to your portrait prints and albums.

Privacy

Privacy is a concern due to the intimate nature of boudoir sessions. All boudoir images are kept in strict confidence and no images will be shown without permission from the client in writing. We use only professional labs and album companies that safeguard the privacy of our client's images.

Morning of your session

Drink lots of water and wear loose fitting clothing. Avoid tight fitting undergarments as they are the most likely to leave elastic pressure lines on your skin. Make sure you are well rested and ready to have FUN!
